

THEANO PRE-ASSIGNMENT

Women empowerment is empowering the women to take their own decisions for creating individuality in the society. Empowering women is to make them independent in all aspects through their mind, thought, rights, decisions, etc by leaving all the social and family limitations. It is to bring equality in the society for both male and female in all areas. To promote empowerment in our society we need to get the details of the problems faced by them. Here is a survey, which will reflect the data regarding the harassments faced by them.

You need to meet 50 various women and collect the data from them based on the format attached herewith (make them fill the form manually). Store this data in an excel file and generate a CSV file of the same. Import this CSV file into a database using PHP and generate the following graphs using java applet.

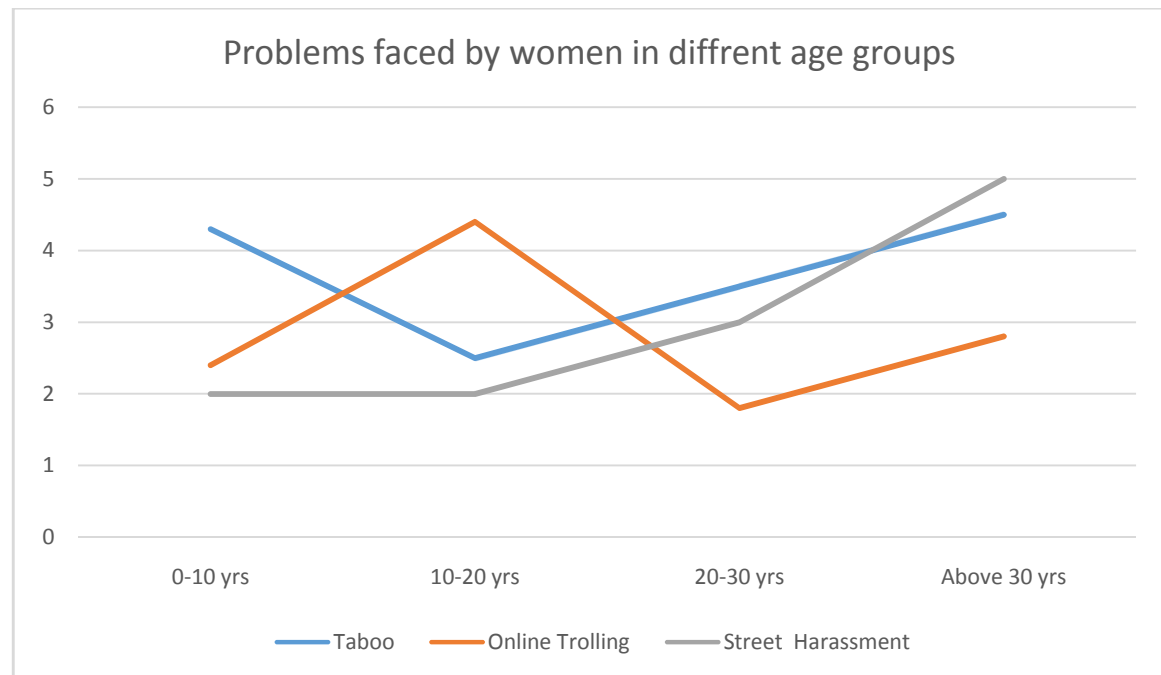

1. Pie Chart showing the percentage of harassments/ problems faced by various women.

Example:

2. Generate a line graph of problems faced by women based on their age group.

Example:

Note: The graphical representation must reflect all the questions mentioned in the form.
